

The **Boulder Incident Management Team (IMT)** is a partnership of professionals, trained and qualified in incident management. The team provides an organizational structure and competent management staff to support large-scale emergency responses in the City of Boulder and Boulder County.

In recent years, the team has responded to a number of incidents to include:

- Fourmile Canyon Fire (2010)
- Dome Fire (2010)
- Flagstaff Fire (2012)
- Front Range Floods (2013)
- Cold Springs Fire (2016)
- Sunshine Fire (2017)

With each deployment, the team refines its processes, builds relationships with its stakeholders and continues to increase capacity.

In addition to local deployments, team members have the opportunity to assist on regional, state, or national incidents if interested.

Interested in joining the team?

We are recruiting energetic individuals who possess or want to learn any of the following skills:

- *Communications*
- *Logistics*
- *Incident Safety*
- *Finance*
